SOCIAL-SCIENCE

PROJECT: Managing Disasters (5 marks will be evaluated in P.T-1)

Choose any man made or natural disaster which your area may be vulnerable to e.g. gas leaks, building collapse, rail or road accidents, laboratory accidents, health hazards due to toxic waste disposal, earthquakes, Floods, volcanic eruptions etc.

1. Prepare a survey schedule detailing the different areas that are posing threats due to the various natural and manmade disasters in and around your school for example factory/slum/dump yard located nearby.
2. Collect the data and prepare a report.
3. Make a plan to deal with any one of the disasters likely to affect your school

Preparation and submission of project report

Following essentials are required to be fulfilled for its preparation and submission

1. The total length of the project report will not be more than 15 – 20 written pages (A-4 size).
2. The project report will be handwritten and credit will be awarded to original drawings, illustrations and creative use of materials.
3. The project report will be presented in a neatly bound simple folder.

The project report will be developed and presented in this order

- Cover page showing project title, student information, school and year
- List of contents with page numbers.
- Acknowledgements (acknowledging the institution, offices and libraries visited and persons who have helped).
- Project Overview: Purpose, Aim, Methodology and experiences while doing the project.
- Content with relevant headings.
- Summary and conclusions based on findings.
- Planning and activities to be done during the project, if any giving a calendar of activities.
- Bibliography: should have the Title, pages referred, author, publisher, year of publication and if a website the name of the website with the specific website link which has been used.
- All the photographs and sketches should be labelled and acknowledged.
- Teacher's evaluation report
